

EARTH ANTHEM

O say can we see

by the one light in all

our earth to embrace

at the call of all nations

where our children can play

in a world without war

where we stand hand in hand

in the grace of creation

where the rivers run clean

through the forests of green

where the cities stand tall

in freedom for all

O say do our hearts sing

for harmony and love forever

on the planet of our birth

blessed with peace on Earth.
